BASEBALL SUPREME Attraction for All Today at Warren

Diamond Tourney Should Attract
Immense Throng; Grays vs.
Boosters; Splendid Special-
ties Promised.

Today is the big day for the baseballists and the fans of the Warren District. With the perfect weather conditions which seem destined to prevail, there should be a splendid attendance. A remarkably high order of baseball is assured and everyone should appreciate that they will have the opportunity to witness one of the fastest ball games ever staged in the Southwest.

While the specialty events will attract a large share of interest, there appears to be an even greater amount of enthusiasm centering in the big contest between the Grays and Boosters. The game will be a struggle worth making considerable sacrifices to see. As stated before, both managers are confident of winning. As a gambling proposition, the game looks like an even money chance; however, on the records of the teams, the Gray supporters should be willing to yield a little in the matter of odds. As a financial matter, it is likely that the game will be of importance far beyond the limits of the \$70 purse to be divided among the winners. Much money is certain to change hands on the result.

The pitchers will be Fulwider for the Boosters and Cothran for the Grays. At least, this was the dope last night. It is not at all unlikely that the contest will develop into a heavy battle. It is a toss-up between these clever moundmen, although Cothran's record here has been a splendid one, while Fulwider has worked only once.

Manager Buchanan says that his boys will not only win the game but annex the specialty honors, not one but all. McNelly is not making many boasts but it is learned from his friends that he is equally confident.

As has been reiterated in these columns for several days, it will be a great game. It is anyone in the district claiming to carry an ounce of red blood in his veins, he is not excusable for remaining away, except in case of dire extremity. It is an occasion for boosting the national game, for the success of which business men whose time is worth money, have sacrificed dearly, in order that the great sport should go on with renewed vigor and support in the Warren District. Surely, the least the fans and every admirer of clean athletics in the district can do, is to journey to Warren Park this afternoon. Don't forget that the specialty events start at 2 o'clock.

ROYAL APARTMENTS ARE PURCHASED FOR 'Y' BOYS' BUILDING

General Manager French Com-
pletes Purchase for Copper
Queen Co., Which Presents
Structure to Y. M. C. A.

General Manager French, of the Copper Queen Co., acting for that concern, has purchased the Royal apartment house, adjoining the Y. M. C. A., and it will be turned over to the association for use for a boys' building. This gift by the Copper Queen Co. is entirely apart from the donation of \$10,000 for "Y" renovations and extensions. In a statement to a Review reporter, yesterday, President Arthur Notman confirmed the above announcement.

The proposition of purchasing the Royal was first broached when it was found that excavation work under the old building would be necessary in order to procure suitable accommodations for the boys. Mr. French began negotiations with the idea of avoiding the excavation, the result being the purchase of the Royal which removed this contingency. Under the new plan the boys' lockers will be in the new building and the men's bath in the present boys' room.

When seen yesterday, regarding the matter, General Secretary A. B. Richardson expressed great enthusiasm over the deal, as well as appreciation of the zealous activity of General Manager French which resulted in the generous action of the Copper Queen Co. He said:

"We expect to organize a fully equipped department for the benefit of the hundreds of boys in Bisbee and the Warren District and nothing will be forgotten that will add to the interest and benefit of the boys in the arrangement and equipment of the new quarters."

"The work of boys carried on in a building that is used by both men and boys is not so satisfactory as when separate quarters are maintained for the juveniles. The 'four-square boy,' the man of the future, will be fully emphasized, and so the social, physical, mental and moral features, so well recognized as the Y. M. C. A. movement and policy, will be fully developed through the new department to be organized."

"President Wilson recently said in an address at Philadelphia: 'You can test the modern community by the degree of its interest in the Young Men's Christian Association'; and so we feel that the sentiment might be well applied favorably to the Copper Queen and to General Manager French in his substantial manifestations in his interests for the community."

WHITE SOX STARS FORM \$100,000 INFILDT

Fournier (left); Blackburne, Collins and Weaver (top to bottom, right).

The new "100,000 infield" in the American league is that of the Chicago White Sox, and consists of Jacques Fournier at first base; Eddie Collins at second; Buck Weaver at short; and Russell Blackburne at third. All these have been most prominent performers since joining the big show, and Collins was a member of the great infield which made the Athletics famous.

through the Y. M. C. A. boys' building and the Y. W. C. A. building. Of course we would not forget and due credit should be given the directors of the Association for their constant efforts in behalf of the work and for making it possible to establish the work."

CLAIMS BATTLE ENDED.

LONDON, Aug. 7.—The late German official claims the resistance of the Russians was broken between Lomza and the mouth of the Bug. Thus whether the Russians were defeated or have fallen back voluntarily, one of the bitterest battles of the war is ended. For just three weeks the Germans, under von Hindenburg, have been trying to force this front.
